

To access your video go to our website [www.languageforfun.org](http://www.languageforfun.org).

1 Click on the **Members** tab which I have circled in red.

If you are accessing the site from a **mobile** device, you will need to click on the word **Menu** so that you can see the options. Instead of being displayed on one line, the options **go down**, so you will need to scroll down to find the **Members** tab.

2 Click on your **language, level and workbook**. The option you click on will turn dark blue.

3 Click anywhere on the **chapter / lesson** that you want to watch.

4 Enter your **password** - no capital letters - and click the **submit** button. You can then go straight to the next or previous video by clicking on the backward or forward **arrows**, but you will need the passwords. Feel free to download your videos to your computer or mobile phone but please don't share / send to anyone else. Enjoy!
